

SAMEER AHMAD

MID-LEVEL ODOO DEVELOPER

Ali Town, Lahore | sameerahmad.92824@gmail.com | [Linkedin](#) | [+92176709372](#) | [Portfolio](#)

SUMMARY

Results-driven Odoo Developer with strong experience in end-to-end ERP implementations, including requirement analysis, business process mapping, system configuration, customization, and deployment. Proven expertise in developing custom Odoo modules to automate workflows, improve operational efficiency, and support scalable business growth. Skilled in third-party integrations, API development, version migrations, and performance optimization, delivering reliable and business-aligned Odoo solutions.

PROFESSIONAL EXPERIENCE

Odoo Technical Developer (HSX Tech) Odoo Silver Partner March 2025 - Present

- Spearheaded end-to-end customization and configuration of core Odoo modules, including Accounting, Sales, Purchase, Inventory, POS, improving overall business process efficiency and client satisfaction.
- Led complex API integrations with third-party platforms such as PRA, FBR,SRB and Flooss streamlining data exchange and automation of workflows.
- Developed and deployed custom Odoo apps using Python, XML, and JavaScript, tailored to meet specific business needs, ensuring maintainability and scalability.
- Managed data migration from legacy systems to Odoo, ensuring minimal downtime and data integrity throughout the transition.
- Delivered POS customizations for diverse retail environments, enhancing UI/UX and extending default functionality to align with operational requirements.
- Successfully executed Odoo Enterprise migrations, including v10 → v18, v17 → v18, and v17 → v19, ensuring smooth upgrades, compatibility, and performance stability.

Odoo Technical Developer (Byte Legions) Jan 2024 - March 2025

- Proficient in customizing and configuring Odoo modules to meet business requirements, enhancing operational efficiency and user satisfaction
- Skilled in developing custom Odoo apps using Python, XML, and JavaScript, ensuring high-quality solutions tailored to specific business needs.
- Experienced in migrating legacy systems to Odoo, managing data migration processes smoothly and efficiently with minimal downtime.
- Demonstrated expertise in integrating Odoo with third-party applications like Pipedrive, Legend Life and redicale services, enhancing system capabilities and business processes. Conducted comprehensive training sessions for end-users, significantly improving adoption rates and proficiency in using Odoo across the organization.

AI Developer (Webvies Technologies) | OpenAI API Integration Aug 2023 - Nov 2023

- Designed and implemented machine learning models to solve complex business problems, resulting in measurable improvements in efficiency and profitability.
- Conducted data preprocessing, feature engineering, and optimization of machine learning algorithms to improve model accuracy and performance. Leveraged natural language processing (NLP) techniques to enhance data

SKILLS

- **Programming Languages:** Python, JavaScript (HTML, CSS, XML)
- **Machine Learning Frameworks:** TensorFlow, PyTorch, Scikit-Learn
- **Deep Learning:** CNNs, NLP, NLTK, SpaCy, Word Embeddings
- **Data Processing and Analysis:** Pandas, NumPy, SK-learn
- **Database Management:** MySQL, SQLite, PostgreSQL
- **Version Control:** Git & GitHub
- **Problem Solving:** Analytical thinking, Creative problem-solving

EDUCATION

Bachelors of Computer Science (BSCS)
University of Southern Punjab, Multan

Aug 2019 - Oct 2023

ADDITIONAL INFORMATION

Languages: English, Urdu, Punjabi, Hindi.

Certifications:

- Python Demonstrations course (Udemy)
- Python programming (Mind Luster)
- Mastering OdoO Development 12 (MindLuster)
- Auto ML bootcamp (No code ML)
- Fundamentals of Machine Learning
